

DOCUMENTATION:

- All my webpages were developed firsthand from a large screen laptop, but I used responsive design for the max-length of 768px (tablet) to make it responsive to other screen sizes
- All my webpages have a header with navigation to other webpages with the hover effect. The footer also contains navigation with contact information and copyright too.
- **INDEX:** My first page has an image of myself on the left and a text on the right along with an audio below it.
- **ABOUT:** My about page starts with 3 pictures of 3 different countries that can zoom slightly from a mouse hovering over it and you can scroll to the text section that links with the image by clicking on the image. Each text has 2 images each. Then I included additional information in lists, as well as 3 gifs.
- **CV:** My CV has an image of me on the left and text on the right with navigation below the text to scroll the user to the respective sections on my CV. I have lists for each information section.
- **GALLERY:** My gallery contains 12 pictures displayed in flex. They also have a hover feature that makes them zoom in. I have a quote-text on the top of the page.
- **CONTACT:** I have a form on the contact page where the user inputs first name, last name, select gender, put their email and write a message. Below is the submit button/

My Journey

Choose which life chapter you want to read:

South Africa

Switzerland

Austria

My Home Country: South Africa

I was born and raised in South Africa. The past 19 years of my life in South Africa made me the person I am today. It will forever be my home. South Africa is known as a **Rainbow Nation**, which means that we are a nation filled with many people from different cultural backgrounds. We are also known for our beautiful nature, which attracts tourists from all over the world. Our diversity, unity and nature makes me proudly South African. Although South Africa will forever be in my heart, I decided to take a big step to change my life completely... I packed my bags and moved to Switzerland.

My Work: Switzerland

The 8th of March 2025. The first day of new chapter. I have always wondered about life beyond South Africa. I wanted to explore and experience the European life. It was not an easy decision to leave my family, friends and my home behind, but I craved to try new things and discover who I am. This was the best decision ever. To achieve this I applied to become an au pair. I worked for 6 months in Zürich. I looked after two amazing children, Simon (7) and Julia (10). This experience was truly amazing. The family gave me the opportunity to see popular tourist attractions, celebrate Swiss holidays and learn about the culture. Not only did I have a new family, and new adventures, I also grew as a person. I became more social, confident and motivated to achieve my goals and dreams. The parents helped me become this new version, and I will forever cherish these 6 months.

My Studies: Austria

Once again, I have decided to change my life and move to another country, leaving a wonderful family behind. I decided to study Informatics at the **IMC Krems University of Applied Sciences**. After months of looking at hundreds of universities, I came across this university. I immediately fell in love with the program structure of Informatics, the university campus with all its amazing facilities, as well as the diversity of students from different cultural backgrounds. I started studying about a month ago, and to be honest, the program is not easy, however I am so happy and excited to continue learning about coding, computers and so much more. I am living in a private apartment with two other girls. They are wonderful roommates and we work well together. The city overall is beautiful, quiet and peaceful. I am excited to see where this chapter takes me...

Personal Information

- Name:** Antoaneta Ivanova
- Age:** 19 years old
- Birthday:** 03.02.2006
- Nationality:** Bulgarian
- Siblings:** 1 sister & 1 brother

My Interests & Hobbies

Movie Nights
(starring Mel Gibson)

Listening to music
Genres: Afrobeats & R&B

Baking
Gluten-Free Goods

Fun Facts

- I have never experienced snow in real life
- I can't drive even though I have a driver's license
- I am afraid of cats
